AI & Data Science Graduate | Python | Machine Learning | OpenCV

Chennai, Tamil Nadu | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science with an 8.88/10 CGPA and academic project experience in Python, OpenCV, face detection, and facial-recognition-based attendance automation. Familiar with data preprocessing, exploratory data analysis, and data visualization using Python libraries. Seeking an entry-level AI/ML or Computer Vision opportunity to apply technical knowledge and develop practical AI solutions.

TECHNICAL SKILLS

Programming Languages : Python, SQL
Artificial Intelligence : Artificial Intelligence fundamentals, Machine Learning project exposure
Computer Vision : OpenCV, Face Detection, Face Recognition
Python Libraries : Pandas, NumPy, Matplotlib, Seaborn
Data Analysis : Data Cleaning, Data Preprocessing, Exploratory Data Analysis
Tools : Power BI, Excel, MySQL

PROJECTS

AI-Powered Smart Attendance System Using Face Analytics

Technologies : Python, OpenCV, Face Recognition, Machine Learning

- Developed a facial recognition-based attendance system using Python and OpenCV.
- Implemented face detection and attendance record management.
- Automated attendance tracking to reduce manual record-keeping.

Power BI Dashboard—Attendance Analysis

Technologies : Power BI, DAX, Power Query, Excel

- Developed an interactive dashboard to analyze employee attendance trends and absenteeism.
- Cleaned and transformed data using Power Query.
- Created DAX measures, KPIs, charts, and filters to support attendance reporting.

Power BI Dashboard—Bread Nutrition Analysis

Technologies : Power BI, DAX ,Power Query, Excel

- Analyzed 50+ bread products to compare nutritional profiles, pricing, and ingredients.
- Used Power Query for data cleaning, transformation, and data preparation.
- Developed DAX measures, KPIs, and interactive visualizations to support product comparison and analysis.

INTERNSHIP EXPERIENCE

Data Analytics Intern | Besant Technologies May 2026 - September 2026

- Performed data preprocessing and data cleaning using Python, SQL, and Excel.
- Analyzed datasets to identify patterns, trends, and insights.
- Created interactive Power BI dashboards for data visualization and reporting.
- Supported data-driven analysis through reporting and visualization.

EDUCATION

B.Tech in Artificial Intelligence and Data Science | CGPA: 8.88/10 | First Class with Distinction 2022 – 2026

Dhaanish Ahmed College of Engineering, Chennai, Tamil Nadu | Anna University Affiliated

CERTIFICATIONS

- AI - Data Engineering Analyst - NASSCOM
- Joy of Computing Using Python - NPTEL
- Big Data Computing - NPTEL
- Data Analytics Training - Besant Technologies
